

Annual Meeting 2020 of the Basel Stem Cell Network (BSCN)

16.10.2020 (Friday) at 14:00-17:00

Biozentrum / Pharmazentrum

Klingelbergstrasse 50-70, Basel

Lecture Hall 1

Program:

Welcome by Verdon Taylor, chairman BSCN Steering Committee *ca 10 min*

BSCN Scientific Presentations

Barbara Treutlein *14:10 - 14:50*
D-BSSE Basel
"Reconstructing human organoid development using single-cell genomics"

Ivan Martin *14:50 - 15:30*
DBM / USB Basel
"Tissue engineering: designing grafts, processes and signals"

Bruno Speck Awards 2020 *15:30 - 16:00*
Sponsored by the Stiftung für Hämatologische Forschung Basel

Basic Research:

Dirk Löffler
D-BSSE Basel
"Asymmetric lysosome inheritance predicts activation of haematopoietic stem cells"

Clinical Research:

Anna Paczulla
DBM Basel
"Absence of NKG2D ligands defines leukaemia stem cells and mediates their immune evasion".

Keynote Speaker

Alex Schier *16:00 – 16:45*
Biozentrum Basel
"Morphogen gradient formation"

Closing remarks by Verdon Taylor

Registration at bscn@unibas.ch

Recognized by the Veterinäramt Basel-Stadt as "Formation in animal experimentation"
